"WHERE TASTE MEETS PURITY"

*A brand new plant-based vegan café and restaurant is in town. The White Lotus Café is newly opened cruelty-free hub to enjoy the pure and delicious plant-based food, drinks and desserts. The café provides a humane meal for you and your family with an enchanting peaceful environment.*

*Why plant-based?*

*Health Reason= According to all the scientific evidences the plant-based diet has been proved to be a healthy way to live, thrive and sustain on our beautiful planet.*

*Environmental Reason= By adopting a vegan lifestyle. We can minimize the environmental issues immediately like food shortage, desertification, natural disasters, deforestation, loss of biodiversity, water shortage, dead zones, climate refugees and various kind of pollutions.*

*Ethical Reason= "What you sow, so shall you reap" or the law of Karma guides us to adhere the principle of Ahimsa and follow the compassionate way of living with our non-human coinhabitants.*

*Global warming reason= Through plant-based diet we can significantly minimize the production of methane as that comes directly from livestock farming which is the major contributor for global warming. Yes we can tackle the root problem of global warming and the best effective solution will be being vegan.*

*Please join us to make a stand against the cruelty against all sentient beings of our planet. We can make Peace by following the principle of Ahimsa which our ancestors had taught us since time immemorial and this has to start from our plate. Our mission is to end the injustice against our animals friends, fight against pollution and climate change.*
